

Driver Inspections Simplified. Xerifleet

Efficiently complete vehicle inspections to keep your fleet compliant and your vehicles on the road.

How Xerifleet Works

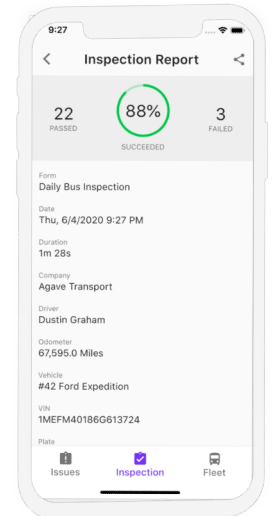

DRIVERS - Easily perform required vehicle inspections on your mobile device and upload photos of issues.

TECHNICIANS - Access inspection reports before the driver returns to the shop, allowing you to prepare for repairs.

FLEET MANAGERS - Ensure required vehicle inspections are being completed.

Why You Need It

Improve Communications Between Drivers & Techs

Drivers can easily conduct inspections and Technicians can quickly access the results in RTA to see what repairs need to be made – all without paper forms.

Seamlessly Integrates with RTA

Powered by RTA, Xerifleet is the best electronic DVIR application on the market to fully – and easily – integrate with RTA's fleet management software.

Create Customized Inspection Templates

Don't waste time on an inspection form that doesn't apply to your fleet vehicles. Create your own forms to ensure the right areas are inspected.
